SUMMARY

Experienced web developer with over 2 years of expertise in creating web applications. Excited to join a collaborative team where I can utilize my strong time management, problem-solving, critical thinking, and communication skills to develop innovative business solutions for clients worldwide. In previous roles, I successfully reduced downtime by 25% and consistently achieved 98% on-time project delivery. I also demonstrated my ability to address major obstacles, leading to a significant 35% improvement in coding efficiency.

SKILLS

Front-end: JavaScript, React, Redux, jQuery, HTML5, CSS3.

Back-end: Ruby, Rails, SQL, PostgreSQL

Tools & Methods: Git, GitHub, Mobile/Responsive Development, TDD, Chrome Dev Tools.

Professional: Remote Pair-Programming, Teamwork, Mentoring, Punctuality, Adaptability

EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS

Full Stack Web Developer

Remote
Nov 2022 – Present

Todo-List — With the urge to solve problems for over 1000 people in my locality and a creative mind I developed a project that helps to keep track of daily activity with features such as adding activity, crossing-out, deleting, and clearing executed activity. Here is a link to a [live demo](#).

- Built with: HTML, CSS, JAVASCRIPT, and GitHub

Car-Rental Web Application — I collaborated with a team of 3 other developers to create a user-friendly web application that allows users to effortlessly browse and rent cars for their desired duration. We utilized our problem-solving skills, effective communication, and creative minds to address bugs and technical challenges, ensuring that the application met the project requirements. Here is a link to a [live demo](#).

- Built with: REACT, RUBY ON RAILS, CSS, JWT, REDUX, and GitHub

SPACE X Application — A web project created to offer users valuable information about the SpaceX team, space travel opportunities, and the latest breakthroughs in space technology. With its efficient and user-friendly interface, the app ensures quick access to the desired content, making it a reliable resource for thousands of space enthusiasts. Here is a link to a [live demo](#).

- Built with: NEXT JS and CSS

MICROVERSE

Mentor (Volunteer)

Remote
Nov 2022 – Present

- Mentored over 15 junior web developers, providing technical support through code reviews.
- Proposed improvements to code organization to improve code quality and 90% overall performance.
- Provided advice and tips on how to maintain motivation to maintain longevity in the program.

CAMBRIDGE COLLEGE

Teacher

Ogun State, Nigeria
Feb 2021–Dec 2021

- I was given the responsibility of teaching and mentoring a class of over 50 students, which showcased my ability to effectively manage and impart knowledge.
- Master how to explain complex documentation and tasks in a very simple lame context to at least 2 co-workers or student parents.
- Develop a skill on how to deal with people from various family-background and various ethnic groups.

EDUCATION

MICROVERSE

Remote Full Stack Web Development Program, Full Time

Nov 2022 – August 2023

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while building projects.
- Developed skills in remote pair programming using GitHub, industry-standard git-flow.

OLABISI ONABANJO UNIVERSITY

BSc, Human Anatomy

Nov 2015 – September 2019

- Human relations.
- computer and technology knowledge.
- Department recommendation Letter: due to excellent performance for the semester.
